BASE TRACK PROFILE

C-Plank is a 10mm tongue and groove hollow form PVC secret fix panel for walls and ceilings. It reduces ceiling condensation by up to 75% and is watertight when fixed vertically to walls.

It is an extruded PVC panel which is suitable for lining shower walls and ceilings as well as changing rooms and food safe areas. It has a Class 1 rating for surface spread of flame.

Planks are 407mm wide and lengths can be from 2m to 4m (up to 6m max.) An alternative 250mm wide plank is also available.

In addition to white PVC, C-Plank is available in a range of standard colours and we can supply bespoke colours, subject to minimum order quantities. Call us on **01274 578 051** for details.
