

# PERFECT TILE FINISH without the tiles!

**Introducing Hygienie-Clad, the ingenious moulded sheet that gives you a premium decorative cladding option.**

- Range of professional tile-effect designs
- Attractive, decorative and practical
- Rapid installation – no grout, no mess, no delay
- Silver antimicrobial surface prevents bacteria build-up
- Suitable for food counters, showers, kitchens, care homes, changing rooms etc.
- Easy to clean and maintain – no discolouring of grout

When new tiles are too costly and white cladding is too plain, **Hygienie-Clad** gives you the perfect compromise. Our tile-effect wall cladding gives you a smart decorative finish. The antimicrobial surface makes cleaning a doddle and it instantly removes the age-old problem of grout discolouration and the build-up of bacteria in grout lines.

**Hygienie-Clad** sheets incorporate silver antimicrobial protection and the cladding retains its antimicrobial properties for the full lifetime of its use.

## Versatile

Unlike tiles, installation is quick and the **Hygienic-Clad** surface dramatically reduces the build-up of mould, bacteria and fungi (preventing the spread of MRSA and Aspergillus Niger). It can be installed over almost any substrate including brick, timber, plaster and even tiled walls. It will hide imperfections in the substrate and achieve a neat and professional finish. Waterproof sealed joints also mean **Hygienic-Clad** can be installed directly in sports club showers and wet rooms in spas and leisure centres.

**Hygienic-Clad** is manufactured in 2400mm x 1795mm sheets and can be cut to size pre-delivery or on-site. It is suitable for installing in both compact and expansive areas. For example, small kitchens and food counter areas or larger walls in sports club showers, commercial kitchens, spa and swimming pool rooms.

## Call for a FREE quote today

To find out more about the costs and viability of fitting **Hygienic-Clad** on your next wall-cladding project call **01274 578 051**.
